United States Senator Weeks, in a recent speech before the senate, clearly sets forth the fact that thousands of surgical operations are uselessly being performed simply for the sake of collecting a fancy fee. In a recent address given by Dr. Jno. M. T. Finney, a noted authority of Philadelphia, he asserts that a large percent of surgical operations are signal failures and are absolutely uncalled for. Dr. Overall of Chicago, another noted authority, claims that injury once done the prostrate by the knife is irreparable. Keyes, perhaps the most noted authority in this country, says: "There is but one condition calling for an operation, and that is the failure of all other treatments." Still many doctors claim that the only way to cure the diseases of our specialty is by the use of the knife. We have saved scores from the surgeon's knife and at a cost even less than the ordinary hospital fee. We can do as much for you.

Impair vitality. We daily demonstrate that Varicocele and Hydrocele can be cured, in nearly all cases, by one treatment, in such a satisfactory way that the vital parts are preserved and strengthenest, pain ceases, swelling subsides, a healthy circulation is rapidly reestablished, instead of the depressing conditions.

We cure and save hundreds of young men yearly from these two vital diseases. Why not let us cure

-PRIVATE-

CONTRACTED -DISEASES-Are the most widespred diseases among the male population and are doing more harm to the race than tuberculosis or cancer. Eighty percent of the male population between the ages of 18 and 30 contract one or both of these diseases, These diseases may be infectious long, long after all visible symptoms have disappeared. They are responsible for one-third of all blindness, cause three-fourth of all abdominal operations in women and are the principal cause of race suicide. Causes nearly all stricture and 75 percent of prostratic diseases. Yet from ignorance of the terrible character of these diseases it is not uncommon to hear young men laughingly boast as if having them were something to be proud

The Most Prevalent and Serious Disease Among Men Past Forty

According to Dr. Hurty,

secretary state board health, the Prostate gland is perhaps the most important gland in the body, being of extreme importance to the physical and mental and reproductive stability of man.
